

WISC2019

FS8 WAY CHALLENGE (Addendum)

Working time 50s.

Exit :

Pool : same as « addendum –C in :

https://www.fai.org/sites/default/files/documents/2018_cr_formation_skydiving_and_vfsv4.pdf

with the following changes

- Blocks 14 and 20: are removed from the dive pool.
- Block 13: all do 360° except the two centre solo flyers
- Block 17: all do 360° except the two outside solo flyers (part of the compressed accordian).
- Block 21: all do 360° except the front caterpillar
- Random K: the tails of the Bows require only one grip
- Launch procedure: The teams will enter the tunnel and build the start formation depicted below. Working time will start on the break of the first grip whether the formation is correct or not
- Penalty: If the start formation is incorrect, one point will be deducted from the aggregate points scored
- Time in the tunnel: the total time allowed per team is 90s. Lights will start flashing at 70s, the team has 20s to leave the flight chamber
